SENSOR IN A SOCKET

POWY PRO AC

DESCRIPTION

Introducing the Powy Pro AC, the ultimate power and environmental monitoring device designed for seamless integration into your electrical system. This advanced device installs directly on a standard DIN rail and sends instant notifications to your smartphone when the power goes out or is restored, and when temperature thresholds are breached, ensuring you're always in the loop.

www.monso.tech

KEY FEATURES:

● Instant power notifications

Receive real-time alerts on your smartphone via cellular connectivity when the power goes out or comes back on, ensuring you're always informed.

● Temperature monitoring

The onboard temperature sensor is preset to alert you if the temperature falls below -30°C, or rises above 75°C, providing critical information for maintaining a safe environment.

● Easy installation

The Powy Pro AC is designed for straightforward installation onto any standard DIN rail, making it perfect for residential, commercial, and industrial electrical panels.

● Cellular connectivity

The Powy Pro AC uses a reliable cellular network to send notifications, ensuring you receive alerts even when the internet is down.

● Backup power

Equipped with a built-in backup power source, the Powy Pro AC is still able to send a notification message, ensuring you receive notifications without interruption.

● Alarming buzzer

The onboard buzzer sounds an alarm when the power goes out, or in the case of temperature thresholds exceeded, providing immediate audible alerts and helping to prevent theft of the device.

● Compact and durable design

With its robust construction and compact size, the Powy Pro AC fits neatly into your electrical panel without taking up much space.

● Versatile use cases

Ideal for homeowners, renters, small business owners, and facility managers who need to monitor power status and environmental conditions for critical devices or appliances.

SPECIFICATIONS:

Dimensions:	92 x 32 x 30 mm
Weight:	75 grams
Mounting:	Standard DIN Rail
Temperature Range:	-30°C to 75°C (-4°F to 158°F)
Backup power:	Rechargeable environmentally friendly supercapacitor. Unlimited charge cycles
Compatibility:	Works with any smartphone (Android or iOS)
Operating Voltage:	90-240V AC, 50/60Hz
Operating power:	150mW

Stay connected and secure with the Powy Pro AC. Never be caught off guard by unexpected power outages or temperature changes again. Order yours today and enjoy peace of mind, knowing you're always informed about your electrical system's power and environmental status.
